(3) Perforated tabs

A new one piece gasket for the engine oil pan is used on certain C18 Marine Engines. Also, the new gasket has the following features, which are shown in Illustration 1. The new gasket helps to eliminate oil leaks.

**Adaptable To:** The gasket is adaptable back to the first production of the engine. The **345-0412** Gasket is a direct replacement for the **188-0210** Gasket.

The change is effective at the factory with the engine serial number JKX00265-UP.

**Reference** Disassembly and Assembly, RENR2389, "Engine Oil Pan Removal and Installation"

**Note:** The **345-0412** Gasket is also available for the following Marine Engines that are listed in the serial number's list: 3406E, C15 and C18. The **345-0412** Gasket can replace the **4N-1151** Gasket or the **4N-3661** Oil Pan Gasket.
