A Better Way

In your world, time is money. Out-of-date parts catalogs and equipment manuals can frustrate you and waste time. That's exactly why we created the Cat PartStore System.

The Cat PartStore System is open for business 24 hours a day, seven days a week. Imagine, more than 800,000 genuine Cat parts at your fingertips ... everything from new to remanufactured, Cat Classic™ Parts, dealer exchange, and used parts.

All as close as **point ... click ... parts.**

Fast and Convenient

The Cat PartStore System includes several timesaving features that help you complete your parts orders quickly and efficiently.

Easy access to your Cat dealer's parts inventory through your existing Enterprise Resource Planning (ERP) system with the PartStore Integrated Procurement program. You can also access the PartStore Web interface with any Internet browser.

Real-time pricing and availability for faster parts ordering and delivery. Verify pricing and availability – all without making a single phone call or visit to the parts counter.

Shared frequent order lists save time as you can place orders using lists that you've already created.

Online order maintenance lets you track and manage orders. Review your online order history and invoicing, or check Reman core status.

Convenient user preferences help you eliminate unnecessary steps and speed up ordering.

E-mail order acknowledgement confirms your orders and helps you stay informed regarding their status.

Compatible with Most Business Systems

The Cat PartStore System integrates with many ERP systems, including SAP, Oracle, and JD Edwards.

Orders are forwarded directly from your ERP system to your Cat dealer's business system. Your Cat dealer then sends electronic invoices to you. These invoices are automatically reconciled with original purchase orders. This eliminates duplicate order entry and margin for error for improved order accuracy.

Contact your Cat dealer for more information.

Getting Started

To begin using Cat PartStore System:

Select the PartStore link on your Cat dealer's Web site. (If no PartStore link is available, contact your Cat dealer directly.)

Read the privacy policy and click "Accept."

Complete the Personal Information registration form and click "Submit."

Your dealer will send you an **e-mail confirmation** that your Cat PartStore System is ready to go.

To use the Cat PartStore System in the future, just select the PartStore link on your Cat dealer's web site.

If you do not know your Cat dealer's web site:

Go to www.cat.com/parts.

Either follow the directions to **register with your local dealer**, or

Click "Find a Dealer" in the upper right corner of your screen.
