Date: June 29th 2022

To whom it might concern

Transparency act - Åpenhetsloven

Pon Power AS is the only distributor of CAT engines and generators in Norway. Typical applications are propulsion engines, auxiliary engines and gensets, with a power range from 6.4 to 7.300 kW. We supply primary power and emergency power to the maritime sector, oil & gas installations and land-based industries. We have a wide service network with easy access to overhauls / repairs, and original CAT and MaK parts, as well as technical support available 24/7. The company assembles generator sets and associated equipment, but it is not involved in the production of the engines.

The Board and Management Team of Pon Power AS, Norway, supports the Transparency Act and makes it clear that the company shall comply with the obligations under the Act, and that the company shall operate responsibly with regards to human rights and responsible working conditions. A due diligence assessment will be published in accordance with the guidelines of the law by June 30th 2023. The company will also comply with the duty to provide information.

The due diligence assessment, including supplier evaluation, will be completed during fall 2022.

Information indicating noncompliance with Transparency act - Åpenhetsloven, internally, within supply chain or at business partners, will be investigated and followed by adequate reactions in line with Pon central policies.

Before the due diligence assessment etc has been completed, all questions to Pon Power AS regarding the Transparency Act will be met by this letter.

A handwritten signature in blue ink, appearing to read 'Claus F. Høyer'.
